

# P124S

---

The P124S is designed for high power air movement in a compact size. This 12" smoke ejector features a 1/2 Hp TEAO electric motor which produces 3700 cubic feet per minute of airflow.

Durability and safety was in mind when this fan was designed. It features a steel frame, a cast aluminum blade, and a heavy gauge steel grill. A baked on powder coat paint job ensures a long lasting finish. P series fans are the perfect combination of a low noise, high output design.

The efficient design of these fans includes Super Vac's patented propeller which produces a much greater intake of air into the vacuum side, eliminates turbulence at the tips, and provides a high velocity screw action that sweeps air back over the motor.

## Specs

Motor.....	1/2 Hp
HxWxD.....	15.5"x15"x13"
Fan Diameter.....	12"
Weight.....	40 lbs
Start.....	2000 watts
Run.....	800 watts
Shroud.....	2750 CFM
Venturi.....	3700 CFM
